

34 The correct answer is A: In Section A, the writer says, 'the flatback turtle – is listed as data deficient, which means scientists simply don't know how it's doing'. Since 'all but one of the world's seven species of sea turtles are considered threatened', he suggests that this species is probably threatened too. **B is incorrect:** Although the text says that there is not enough data on the flatback turtle (it is 'listed as data deficient'), there is no mention in the text that scientists have neglected it. **C is incorrect** because the text suggests that the flatback turtle is probably in as much danger as the other species of sea turtle. **D is incorrect** because the flatback turtle is not on the IUCN Red List, so it cannot be removed from it.
